RE: Support for Art with a Heartbeat

To Whom It May Concern:

This letter serves as our support of Art with a Heartbeat. This new event has the potential to attract many people to Klamath as both participants and visitors. It also will serve as a stepping stone to bringing artists and film-makers back to the community in the future. The event fits well with local goals to increase use of available meeting and convention facilities and can become a regular feature in the annual calendar.

We are excited to work closely with Art with a Heartbeat to market an excellent event that will enhance our community and share what is special about Klamath County.

Please provide your support for this important event.

Sincerely,

Charles Massie  
Executive Director
