LASIK Surgeons

State-of-the-art diagnostic  
equipment

Treatments for sight-  
threatening eye disease –  
cataracts, glaucoma, diabetic  
retinopathy

- Annual exams
- Glasses & contact lenses

## **Complete Convenience**

- Visa, MasterCard & Discover
- Payment plans available
- Medicare accepted
- Emergencies seen promptly

August 26, 2009

To Whom It May Concern:

I am writing to support the grant request from K.U. Stories for the movie premiere of the K.U. Stories documentary.

I have been involved in this project since it's inception a year ago. During that time, I have spoken with many graduates of K.U.

I have been impressed by the pride that former students have in their school. They remember fondly their days at K.U. High School and are proud of the education they received there.

Many people expressed a strong desire to attend the premiere when it was held.

Take for example former K.U. student Richard Dewey, class of 1952. Mr Dewey lives in Benecia, California. He took some of his vacation time to stop by Klamath Falls to be filmed for the documentary. I would like to draw your attention to the last paragraph of his unsolicited letter in which he says, "It would be great fun to attend your History Gala. So please e-mail the date as soon as it is set."

Please help make this documentary a success by funding the grant request.

Sincerely,

Daniel O. Benson, M.D.
