Dear Ms. Soto

I would very much like to thank you for meeting with me and helping me in doing and completing my Senior Project. Without your help I wouldn't have been able to finish off my high school education and experience the wonders your business has given me, along with the life experience it has also brought me.

Without your help in my Senior Project, I wouldn't have learned any of the important skills that you have taught me until later in my years when it would have been best to know before hand. You have taught me some great people skills, how to contact bands and how to throw an amazing show. Also the policies you have gone over with me in order to run a business was such a great help. I never would have thought of all the things one needs to do when opening a business.

Not only have I learned these great lessons in life, but I have also made many friends and family just by working at the CAK. Something I will always be forever grateful for and never forget. The CAK is my second home, and I wish you all the best of luck with it in the future to come.

Again, thank you for helping me succeed in my project and helping me experience one of the most exciting things in my life. You are an amazing person and I love you so very much!

Sincerely yours,

Rebekah Anglin
